AN ORDINANCE— Authorizing the Mayor and the Director of the Department of Public Works to enter into a contract with the W. W. Lawrence & Company, a corporation of the State of Pennsylvania and owner of certain property including a six-story warehouse building on the northeast side of Carson Street West, in the Nineteenth ward, City; relating to the construction of an arcade over the sidewalk and to the making of various changes and alterations in said building so as to provide a continuous sidewalk for the use of the public, and providing the conditions and payment of the cost thereof.

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same,* That the Mayor and the Director of the Department of Public Works of the City of Pittsburgh, be and they are hereby authorized and directed to make, execute and deliver, in the name of the City of Pittsburgh, and for the City of Pittsburgh, the following contract with the W. W. Lawrence & Company, a corporation of the State of Pennsylvania, and affix thereto the corporate seal of the said City of Pittsburgh.

AGREEMENT.

Made thisday of 1919, between the City of Pittsburgh, a municipal corporation of the County of Allegheny, Pennsylvania, and a city of the second class, party of the first part, hereinafter called "City," and W. W. Lawrence & Company, a corporation of the State of Pennsylvania, hereinafter called "Company", party of the second part.

Whereas, said Company is the owner, inter alia, of certain property on the northeast side of Carson Street West, in the Nineteenth ward of the said City, upon which is erected a six-story warehouse building, the front of which ex-

tends out to the street line of said street, as established by ordinance, approved November 24, 1873, and,

Whereas, said City, by Ordinance No. 234, approved August 5, 1918, widened said street on both sides of said building, so that at the present time ten feet of the front part of said building and the ground on which it is erected extends beyond the northeasterly line projected of said street, as widened by said ordinance, and,

Whereas, said City desires to procure from said Company, the right for pedestrians to use that portion of the street floor of said building (being the third floor of said building as now constructed) extending beyond the northeasterly line of said street projected as widened by said ordinance, so as to make a substantially continuous sidewalk for the use of pedestrians, and

Whereas, to accomplish this result without otherwise interfering with said building, it will be necessary to arcade the street floor of said building, which will necessitate various changes and alterations in the building, to enable said company to have substantially the same access to the building from the street as it now has,

Now this agreement witnesseth, that for the considerations and advantages moving from one to the other, hereinafter mentioned, the parties hereto do mutually covenant and agree to and with each other and their successors and assigns, forever, as follows:

1. Said company agrees to arcade the street floor of said building and to remodel, change and alter said building, in accordance with plans and specifications prepared by the W. G. Wilkins Company, Engineers and Architects of the City of Pittsburgh, which plans have been submitted to and approved by the Director of the Department of Public Works of said city, and are authenticated by the signatures of the Director of said Department and the President of said Company, and which plans and specifications, by reference thereto, are made part hereof. The portion of said building to be arcaded lies between the northeasterly line of Carson Street West, as established by Ordinance, approved November 24, 1873, of record in Ordinance Book, Vol. 3, Page 426, and a line parallel to and ten feet northwardly therefrom.

2. The arcade shall be so constructed that the public shall have the free and uninterrupted use of the arcaded street floor of said building for sidewalk purposes, with a clear head room of eleven (11) feet above the grade of said street as established by Ordinance No. 238, approved August 5, 1918, except to the extent that the same is now occupied by piers extending along the street line, which support the front part of said

building, which piers the company shall have the right to maintain on the present location thereof as shown on the plans hereto attached and made part hereof.

3. Upon the completion of said arcade and so long as said Ordinance No. 238, approved August 5, 1918, remains in force and effect, the public shall have the right to free and uninterrupted travel across and through said arcade as though it were a regular public sidewalk of said city. This right, however, not to affect in any manner whatsoever, the right of said company to maintain said building above or below the portions so arcaded.

4. It is understood and agreed that the construction of said arcade will make it necessary for said company to make various changes and alterations in the building, for the purpose of enabling said Company to have access hereafter substantially equivalent to what it now has, the changes and alterations so required being provided for in said plans and specifications.

It is understood and agreed that neither the City nor the public are to acquire any rights in respect to said building or the ground on which it is erected other than the right of the public to free and uninterrupted use of said arcaded floor of said building for sidewalk purposes, and it is further understood and agreed that nothing contained in this contract shall in any wise abridge or bar the right of the City to take and appropriate that portion of the property or building arcaded for street purposes in accordance with the Acts of Assembly of the Commonwealth of Pennsylvania now in force or hereafter to be passed.

6. Said City agrees to pay said Company the actual cost of the construction of said arcade, and the actual cost of making the changes and alterations shown on said plans and specifications, and also the actual cost of said services of said W. G. Wilkins Company for the preparation of plans and specifications for and supervision of the work of constructing said arcade, and the remodeling and changes provided for in said plans and specifications.

7. Said company has solicited proposals for the doing of said work in accordance with said plans and specifications from three responsible Building Contractors engaged in business in said City, and the lowest bid received therefor from such Contractor was the sum of \$10,585.00. Said Company agrees to let said contract to the lowest responsible bidder for said sum, or, at the option of the Director of the Department of Public Works of said City, it will solicit proposals from such other responsible Building Contractors as he may desire, and let a contract therefor

to the lowest responsible bidder, the letting to be subject to the approval of the Director of said Department.

8. Said Company agrees to let a contract promptly for the doing of said work, and to insert a provision in the contract that the work must be done within two months from the the letting thereof.

9. Said City agrees to pay said company, from time to time hereafter, as the work progresses, such amounts as it may be required to pay to the contractor or contractors engaged to do said work, and the amount required to be paid to the W. G. Wilkins Company for architectural and engineering services, these bills, if desired by the Director of the Department of Public Works, to be approved by said Director. On the completion of said work, said City agrees to pay said Company the entire balance required to be paid by it to the person or persons doing such work, such payments to include any extras for work, materials and services required and not foreseen, the entire cost however to be paid by said City to said Company, not to exceed \$12,740.00.

10. All money payable by said City under this contract shall be payable out of Appropriation West Carson Street Improvement Bonds, 1919.

11. The City, during the course of the work, shall have the right to inspect or examine the work, without interference on the part of said Company, or the Contractor or Contractors engaged to do said work.

12. This contract is entered into by said City, pursuant to Ordinance No. _____, approved _____ of record in Ordinance Book Vo. _____, Page _____, and by said Company, in pursuance of a resolution of the Board of Directors thereof, duly passed at a regular meeting thereof, held _____, 1919.

Passed February 3, 1919.

Pittsburgh, February 17th, 1919.

I do hereby certify that the foregoing resolution, which has been disapproved by the Mayor and returned with his ob-

jections to the Council, was passed by a two-thirds vote of said Council, this 17th day of February, A. D. 1919.

Clerk of Council.

Resolution Book 4, Page 249.

No. 90

Whereas, Honorable Newton D. Baker, Secretary of War, has heretofore entered an order directing that the bridges crossing the Allegheny River, consisting of what are commonly known as the Sixth, Seventh, Ninth, Sixteenth, Thirtieth and Forty-third street bridges, be raised to such an extent as was provided in the order respecting each bridge; and,

Whereas, Subsequently thereto-to-wit, on February 28th, 1918, the War Department order was issued, postponing until further notice the raising and reconstruction of the said bridges; and,

Whereas, The Honorable Newton D. Baker, Secretary of War, has before him for consideration the question as to whether or not the original order, directing the said bridges to be raised, should be reissued or action taken the effect of which would be to require the bridges to be raised in conformity with the original order as issued; and

Whereas, The Council of the City of Pittsburgh having knowledge and being informed of the public requirements, not only from the standpoint of river transportation, but also from the standpoint of railroad, street car and vehicular transportation, as well as foot traffic, and being desirous of placing before the Secretary of War its views in regard to the said bridges and to that end it is, therefore,

Resolved, That the Council of the City of Pittsburgh in regular meeting assembled, hereby vigorously protest against the raising of any of the bridges crossing the Allegheny River, and particularly those bridges commonly known as the Sixth, Seventh, Ninth, Sixteenth, Thirtieth and Forty-third street bridges, which protest is based not only upon the terrific expense to which the citizens of Pittsburgh and those of the County of Allegheny will be put, but also on the ground that the river transportation is insignificant when compared to and with the land transportation; and be it further

Resolved, That if notwithstanding the protest of the City of Pittsburgh of action taken by the Mayor and the Council thereof, as well as the action taken by the County of Allegheny through its County Commissioners, the War Department of the United States, through the

Secretary thereof, insists upon the said bridges being raised, we, the Council of the City of Pittsburgh, most earnestly protest against any order being issued at this time commanding the owner of said bridges, the County of Allegheny, to raise such bridges, and in support of said protest the Council of the City of Pittsburgh assign the following reasons, to-wit:

(a) The river interests, at whose instance and request the War Department has heretofore entered the order directing said bridges to be raised, have, so we are informed, requested a change in the order heretofore issued by the War Department affecting the width of spans, the location of piers, and the bridge height above pool level, as the same affects the Sixteenth and Forty-third street bridges, and which request will in all probability be followed up and have a bearing on the other bridges, resulting, if adopted, in the destruction of the plans, surveys and other work already accomplished on the said bridges.

(b) The entire citizenship of Pittsburgh and Allegheny County has at the request of the Government responded so patriotically that it has at all times subscribed and actually paid for a great deal more than its allotment of Liberty Bonds, Red Cross, United War Work and other campaigns fostered by the Government in connection with the World War.

(c) War necessity, having prevented to a great degree municipal improvements and developments, we find ourselves confronted with so many things, most of necessity, to be done in order to protect the lives and health of our people and to improve living conditions, resulting in enormous expenditures by the City of Pittsburgh, as well as by the County of Allegheny, that to, at this time, be compelled to stand additional burdens imposed by the raising of many of the aforesaid bridges, the financial obligations would be such as to be almost unbearable.

(d) The Sixth, Seventh, Ninth and Thirtieth street bridges are structures which were substantially constructed and all have an anticipated life and use of approximately twenty-five (25) years, and to, at this time, destroy the same when the cost of reconstruction is so abnormally high, will impose not only a heavy burden, but an entirely unnecessary burden upon our people.

(e) The involved problems in connection with the raising of these structures, that many orders affecting public service corporations of the State of Pennsylvania, and doing business in the City of Pittsburgh, will have to be entered, as required under the laws of the State of Pennsylvania, applying to the public service commission, having special ref-

erence to railroads, street car lines (the operating company of which is now in the hands of receivers), gas companies, both natural and artificial, and other public service interests; all grade crossings should be abolished, and the height of the bridge structure over railroad tracks will in all probability vary in each case, must be fully determined, and many other problems too numerous to mention.

(f) The Sixteenth Street Bridge having been destroyed by fire, and so far as the piers of said bridge were obstructions to navigation, having been removed after the fire, not only on account of the orders heretofore issued by the War Department, requiring the raising of this particular bridge, but also on account of the public demand for a bridge to replace the destroyed one, the County of Allegheny and the City of Pittsburgh, acting through their respective proper channels, have caused plans to be prepared, engineering data obtained and submitted, and in fact all problems which arise in connection with the construction of a new bridge have been and are being considered, and are rapidly approaching solution to the end that it is hoped for and expected that the construction of a new bridge on the site of the old Sixteenth Street Bridge will actually take place in the immediate future.

(g) Plans have heretofore been practically completed for the raising of the Forty-third Street Bridge, but on account of the demands of railroad, street car lines and the interests of other public service corporations, and in fact to serve the best interests of the communities affected and the various people involved, it has been suggested that the new bridge be constructed at Fortieth street instead of at Forty-third street, and the various problems, which necessarily arise, have been and are being considered and are rapidly being solved. It being necessary, in the event the Fortieth street location is finally adopted instead of the present Forty-third street location, to keep open for public travel the Forty-third Street Bridge until the new or Fortieth Street Bridge has been constructed and opened to public traffic, and this for the special reason that it is absolutely necessary and essential to keep open for public travel the Forty-third Street Bridge for the benefit of the people of the City of Pittsburgh, the Borough of Millvale and the territory lying beyond; be it further

Resolved, That in addition to the reasons herein set forth, and in support of the protest against issuing any order requiring the raising of the bridges referred to, that Pittsburgh proposes to absorb its portion of the contemplated Liberty Loan, commonly known as the Victory Loan, and proposes at all times

to do all that it is expected of her of a patriotic nature and to do the same willingly and gladly; and be it further

Resolved, That a copy of these resolutions be sent to the Honorable Newton D. Baker, Secretary of War.

No. 164

Whereas, House Bill No. 923, session of 1919, proposes to further amend the Act of June 7, 1879, and its amendments, which Act with its amendments now provides that three-fourths of the net amount of tax on the return of property subject to taxation for State purposes shall be returned by the State Treasurer to the county paying such tax, so that the amended Act shall provide for the return of only one-half of such tax to the County; and,

Whereas, The passage of said amended Act will deprive the Counties of the State, more particularly the County of Allegheny, of a large proportion of their revenues; and

Whereas, It is the belief of this Council that the diverting of such tax from the Counties will necessitate the placing of an additional tax upon real estate and thereby injuriously affect the interests of the citizens of Pittsburgh; now, therefore, be it

Resolved, That the Mayor and the Council of the City of Pittsburgh hereby protest against the passage of said House Bill No. 923, and that copies of this resolution be sent to the Governor of the Commonwealth of Pennsylvania, the members of the Senate and House for Allegheny County and to the said

County Commissioners of Allegheny County.

Whereas, In the case of James Reese & Sons vs. City of Pittsburgh at No. 2416 July Term, 1916, an appeal from the award of the Board of Viewers in the Penn Avenue Improvement, it became necessary to employ certain expert real estate witnesses to testify on behalf of the City of Pittsburgh; and

Whereas, It was agreed between Council and Mr. H. M. Irons, Assistant City Solicitor, who had charge of the preparation and trial of the case, that the fee to be paid the aforementioned witnesses was to be the sum of \$500.00 each; and

Whereas, It was also necessary to employ other real estate witnesses to testify on behalf of the City, but there was no agreement as to the amount of fees to be paid said witnesses, who presented bills for \$500.00 each, which bills on presentation to the Finance Committee for approval were reduced to \$250.00 each, and the bills of Messrs. John E. Kane and John A. Sharp were also reduced to \$250.00 each; and

Whereas, By reason of the fact that it was agreed between Council and Mr. H. M. Irons, Assistant City Solicitor, at the time Messrs. Kane and Sharp were employed that the fee to be paid to each of them for their services was to be \$500.00, it is only just and fair that the balance of \$250.00 each, which remains unpaid, should be paid to them as agreed; now, therefore, be it

Kane, deceased, in the sum of \$250.00, and a warrant in favor of John A. Whereas, The injuries sustained were due to the tilting of the sewer lid; and

Whereas, The said Fred A. Twaley filed his claim against the City of Pittsburgh for five hundred dollars (\$500.00), covering loss of wages and physician's bill, but has agreed to accept two hundred dollars (\$200.00) in full settlement of his claim; now, therefore, be it

Whereas, The Mt. Washington Presbyterian Church, located at the corner of Grandview avenue and Kearsarge street, Nineteenth ward, City of Pittsburgh, was assessed a flat water rate for the year 1910, amounting to \$80.50, and for the year 1911 the sum of \$82.50; and

Whereas, A lien has been filed against the said Mt. Washington Presbyterian Church for non-payment of said water assessment for the year 1910, at D. T. D. No. 3646, April Term, 1913, amount-

ing to \$114.84, which amount includes nalty, interest and costs; and

Whereas, A lien has also been filed against said Mt. Washington Presbyterian Church for non-payment of said water assessment for the year 1911, at D. T. D. No. 904, January Term, 1914, amounting to \$114.25, which amount includes penalty, interest and costs; and

Whereas, The trustees of the said Mt. Washington Presbyterian Church feel that the water assessments at the flat rate for the years 1910 and 1911 are excessive for the reason that the metered rate for the year 1912—a meter having been installed late in 1911—amounted to \$35.23, and believe that no more water was used by said church in 1910 and 1911 than was used under the metered rate in 1912; and

Whereas, For the reason stated above the trustees of the Mt. Washington Presbyterian Church believe that a fair and equitable adjustment of the assessments for the years 1910 and 1911 would be the amount paid at the metered rate for 1912, to-wit: the sum of \$35.23, and respectfully ask that the assessments for 1910 and 1911 be reduced to \$35.23, respectively; therefore, be it

Resolved, That the City Solicitor be and he is hereby authorized and directed to satisfy the lien filed against the Mt. Washington Presbyterian Church at No. D. T. D. 3646 April Term, 1913, upon payment of \$35.23; and to satisfy the lien filed against the Mt. Washington Presbyterian Church at No. D. T. Whereas, A lien has been filed against Mrs. Mary Young for failure to pay said sewer assessment amounting to \$406.98, at No. 196 January Term, 1919; and

Whereas, The Right Reverend Regis Canevin, Trustee for St. Walburga Church, is desirous of paying the said church's proportionate share of the cost of the construction of said sewer on the portion of the lot purchased by said church from Mrs. Mary Young; therefore, be it

No. 302

1. Whereas, A great number of our returned soldiers have protested against any change in the management of the Soldiers' and Sailors' club which would affect Captain Charles S. Schadle, and have expressed their hearty approval of the manner in which he has conducted it.

2. The club is being operated solely for our soldier boys and they are the ones to be satisfied primarily and finally.

3. The War Department has announced that entire demobilization will be completed by September 1 and at the latest by October 1.

4. The purpose for which the club was created, to provide a temporary home for our service men during the war and demobilization, will have been served in two or three months.

5. If the club is not closed then it will have to be reorganized along different lines and such a step should be taken only after careful thought.

6. While there have been slight differences as to the policy of operation, we understand they are not vital and there appears to be no pressing necessity to make any changes until the club's present work is finished in the near future. Therefore, be it

Resolved, In view of the creditable record the club has made, for which Captain Schadle deserves a fair share of

credit, as attested by his comrades, and in view of his gallant record as a soldier—17 months in the trenches "over there"—that Council and the Mayor, donors of the building and founders of the club, advise the directors of the War Camp Community Service, tenants of the Public Safety Building, as follows:

1. That we deeply appreciate the work they have done and the substantial help they have given the club.

2. That in our opinion the club should continue to operate as it has until the time arrives to cease its present activities and be re-organized along other lines September 1 or October 1.

3. That Captain Shadle should be allowed to finish his work and that he should not be displaced, placed on furlough, or interfered with, until he does so.

4. That the Mayor, at his convenience, prior to September 1, call a conference of the directors of the War Camp Community Service, the citizens who composed the original "organization committee" of the Soldiers and Sailors Club, and the members of Council, and that said conference decide on future plans for the club, and if it is to continue, as to how and by whom it shall be operated.

Whereas, On October 13, 1911, a contract was awarded by the Mayor and the Director of the Department of Public Works of the City of Pittsburgh, in pursuance of proper legislative authority, to Jas. H. McQuade Company, a corporation, for the grading, regrading, repaving and otherwise improving Wabash

street, from Park way to South Main street; South Main street from West Carson street to Alexander street; Neptune street from Wabash street to Mill street, and the streets and alleys affected by the improvement of the same, in accordance with the provisions of an Ordinance of Councils, No. 10, Series 1911-1912, approved April 20th, 1911; and

Whereas, The work under the contract aforesaid was completed by the contractor and accepted by the Department of Public Works of the City of Pittsburgh; and

Whereas, Under the contract aforesaid it was provided that all sheet asphalt pavements, asphalt block pavements and Portland cement pavements laid under said contract should be kept and maintained at the expense of said Jas. H. McQuade Company in accordance with the specifications for the maintenance of such pavements for the period of five years from and after acceptance; and

Whereas, During the progress of the work of said improvement the contractor notified the Department of Public Works that the asphalt block provided for under the contract aforesaid would not meet the specifications and protested against the use of same; and

Whereas, Within the period of five years from and after acceptance of said work in which the contractor was required to keep in repair and maintain the streets aforesaid, as set forth in the contract above mentioned, defects appeared in said paving, which could have been patched and temporarily repaired to last the five-year period at an expense of about \$1,000.00 to said contractor; and

Whereas, When the said defects appeared in said paving the Department of Public Works deemed it advisable to have the City of Pittsburgh do the work of repairing said streets and substitute more durable paving, likely to last fifteen or twenty years, at an expense of about \$7,000.00, rather than permit the contractor to patch said streets and make temporary repairs to same to meet the provisions of said contract; and

Whereas, No adjustment or settlement has been made between the City of Pittsburgh and said Jas. H. McQuade Company of the matters arising out of the provision of said contract requiring said contractor to keep said streets in repair, or has the City of Pittsburgh been reimbursed for any portion of the money so expended in repairing said streets as aforesaid; and

Whereas, The said Jas. H. McQuade Company has offered to pay into the treasury of the City of Pittsburgh the sum of \$1,000.00 in full settlement of all claims and demands of the said City

of Pittsburgh against said Jas. H. McQuade Company arising out of said contract, or for or on account of the work of repairing said streets, or the money expended in doing said work; therefore, be it

Resolved, That upon the payment into the treasury of the City of Pittsburgh by Jas. H. McQuade Company of the sum of one thousand dollars (\$1,000.00) said amount shall be accepted in full satisfaction of all claims and demands of the City of Pittsburgh against said Jas. H. McQuade Company arising out of the contract for the grading, regrading, repaving and otherwise improving Wabash street from Park way to South Main street; South Main street from West Carson street to Alexander street; Neptune street from Wabash street to Mill street, and the streets and alleys affected by the improvement of the same under Ordinance of Councils No. 10, Series 1911-1912, approved April 20th, 1911, and in full settlement of all claims and demands of the City of Pittsburgh against the said Jas. H. McQuade Company arising out of the work of repaving of said streets or money expended therefor by the City of Pittsburgh, and all liability of the said Jas. H. McQuade Company under said contract, as well as all liability of the surety upon the bond accompanying same, shall thereupon cease and determine absolutely. Provided, however, that said sum of one thousand dollars (\$1,000.00) shall be paid into the City Treasury by the said Jas. H. McQuade Company within fifteen days from date of approval of this resolution.

Whereas, The Board of Viewers assessed benefits of \$516.38 against the property of Charles E. Schuetz, which property is situate at the corner of Craig street and Truro way, having a frontage of fifty (50) feet on Craig street, extending back along Truro way a distance of one hundred (100) feet; and

Whereas, The property along Truro way cannot be developed on account of the fourteen (14) per cent grade, and the property having already borne its full assessment for fifty (50) feet of frontage on Craig street for street improvement, the said Charles E. Schuetz's property has not been benefited in the value of \$516.38, but the said Charles E. Schuetz is willing to pay one-half the said benefit assessment, to-wit, \$258.00; now, therefore, be it
